AUTHORITY: 46 U.S.C. 1271–1279 and 16 U.S.C. 4101 *et seq.*

SOURCE: 61 FR 19172, May 1, 1996, unless otherwise noted.

**Subpart A—General**

**§ 253.1 Purpose.**

(a) The regulations in this part pertain to fisheries assistance programs. Subpart B of these rules governs the Fisheries Obligation Guarantee Program, which guarantees the repayment of certain long-term fisheries and aquacultural debts. This allows those debts to be placed in the same private investment market that buys U.S. Treasury securities, where interest rates are lower and maturities are longer. The Program does all credit work and holds and services all credit collateral. The Program's guarantee fee makes it self-supporting.

(b) Subpart C implements Title III of Public Law 99-659 (16 U.S.C. 4100 *et seq.*), which has two objectives:

(1) To promote and encourage State activities in support of the management of interjurisdictional fishery resources identified in interstate or Federal fishery management plans; and

(2) To promote and encourage management of interjurisdictional fishery resources throughout their range.

(3) The scope of this part includes guidance on making financial assistance awards to States or Interstate Commissions to undertake projects in support of management of interjurisdictional fishery resources in both the exclusive economic zone (EEZ) and State waters, and to encourage States to enter into enforcement agreements with either the Department of Commerce or the Department of the Interior.

**Subpart B—Fisheries Obligation  
Guarantee Program**

**§ 253.10 Definitions.**

The terms used in this subpart have the following meanings:

*Act* means Title XI of the Merchant Marine Act, 1936, as amended.

*Actual cost* means project cost (less a 10-percent salvage value), depreciated (excluding land) on a straightline basis at 1-year intervals over the project property's useful life including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires.

*Applicant* means the one applying for a guarantee (the prospective notemaker).

*Application* means an application for a guarantee.

*Application fee* means 0.5 percent of the dollar amount of an application.

*Aquacultural facility* means land, land structures, water structures, water craft built in the U.S., and equipment for hatching, caring for, or growing fish under controlled circumstances

and for its unloading, receiving, holding, processing, or distribution for commercial purposes.

*CCF* means Capital Construction Fund.

*Citizen* means a citizen or national of the U.S. who is otherwise also a citizen for the purpose of documenting a vessel in the coastwise trade under section 2 of the Shipping Act, 1916, as amended.

*Contributory project* means any project that contributes to developing the U.S. fishing industry by: Causing any vessel to catch less overutilized species than before; applying new technology; improving safety or fuel efficiency; making project property more efficient, productive, or competitive; potentially increasing fisheries exports; helping develop an underutilized fishery; or enhancing financial stability, financial performance, growth, productivity, or any other business attribute.

*Demand* means a noteholder's request that the guarantor pay a guaranteed note's full principal and interest balance.

*Division* means the Financial Services Division, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

*Dual Use CCF* means a CCF agreement whose qualified vessel is project property and whose deposits are pledged to repayment of the U.S. note.

*Facility* means a fisheries facility or aquacultural facility.

*Financing* means the first permanent debt placed on project property for financing its project cost.

*Fish* means all forms of aquatic animal and plant life, except marine mammals and birds.

*Fishery facility* means land, land structures, water craft that do not fish, and equipment used for transporting, unloading, receiving, holding, processing, or distributing fish for commercial purposes (including any fishery facility for passenger fishing).

*Fishing* means catching wild fish for commercial purposes (including passenger fishing).

*Guarantee* means the guarantor's contractual promise, backed by the full faith and credit of the United States,

to repay a guaranteed note if a notemaker fails to repay it as agreed.

*Guarantee fee* means 1 percent of a guaranteed note's average annual unpaid principal balance.

*Guaranteed note* means a promissory note from a notemaker to a noteholder whose repayment the guarantor guarantees.

*Guarantor* means the U.S., acting, under the Act, by and through the Secretary of Commerce.

*Industry* means the fisheries and/or aquacultural industry.

*Noteholder* means a guaranteed note payee.

*Notemaker* means a guaranteed note payor.

*Passenger fishing* means carrying in vessels for commercial purposes passengers who catch fish.

*Program* means the Fisheries Obligation Guarantee Program.

*Project* means the construction of new project property or the refurbishing or purchase of used project property including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires.

*Project property* means the vessel or facility involved in a project whose actual cost is eligible under the Act for guarantee and controls the dollar amount of a guaranteed note.

*Property* means the project property and all other property pledged as security for a U.S. note.

*Qualified* means acceptable, in the Division's credit risk judgment, and otherwise meeting the Division's requirements for guarantee.

*Refinancing* means newer debt that either replaces older debt or reimburses applicants for previous expenditures.

*Refinancing/assumption fee* means 0.25 percent of the principal amount of a guaranteed note to be refinanced or assumed.

*Refurbishing* means any reconstruction, reconditioning, or other improvement of used project property involving more than routine repair or maintenance.

*Security documents* mean all collateral securing the U.S. note's repayment and all other assurances, undertakings, and

contractual arrangements associated with the U.S. note.

*Underutilized fishery* means:

(1) For a vessel, any fish species harvested below its sustainable yield.

(2) For a fisheries facility, any facility using that species or any for which aggregate facilities are inadequate to best use harvests of that or any other species.

*U.S.* means the United States of America and, for citizenship purposes, includes the Commonwealth of Puerto Rico; American Samoa; the U.S. Virgin Islands; Guam; the Republic of the Marshall Islands; the Federated States of Micronesia; the Commonwealth of the Northern Mariana Islands; any other commonwealth, territory, or possession of the United States; or any political subdivision of any of them.

*U.S. note* means a promissory note payable by the notemaker to the guarantor.

*Useful life* means the period during which project property will, as determined by the Division, remain economically productive.

*Vessel* means any vessel documented under U.S. law and used for fishing.

*Wise use* means the wise use of fisheries resources and their development, advancement, management, conservation, and protection.

#### § 253.11 Guarantee policy.

(a) A guarantee financing or refinancing up to 80 percent of a project's actual cost shall be available to any qualified citizen otherwise eligible under the Act and these rules, except:

(1) *Vessel construction*. The Program will not finance this project cost. The Program will only refinance this project cost for an existing vessel whose previous construction cost has already been financed (or otherwise paid). Refinancing this project cost for a vessel that already exists is not inconsistent with wise use, but financing it may be.

(2) *Vessel refurbishing that materially increases an existing vessel's harvesting capacity*. The Program will not finance this project cost. The Program will only refinance this project cost for a vessel whose previous refurbishing cost has already been financed (or otherwise paid). Refinancing this project cost is

not inconsistent with wise use, but financing it may be.

(3) *Purchasing a used vessel or used fishery facility*. The Program will neither finance nor refinance this project cost (except for a used vessel or fishery facility that the Program purchased and is reselling), unless the used vessel or fishery facility will be refurbished in the United States and will be a contributory project or it will be used in an underutilized fishery.

(b) Every project, other than those specified in paragraphs (a) (1) and (2) of this section, is consistent with wise use and every project, other than those specifically precluded in paragraphs (a) (1) and (2) of this section, may be financed, as well as refinanced.

#### § 253.12 Guaranteed note, U.S. note, and security documents.

(a) *Guaranteed note*—(1) *Principal*. This may not exceed 80 percent of actual cost, but may, in the Division's credit judgment, be less.

(2) *Maturity*. This may not exceed 25 years, but shall not exceed the project property's useful life and may, in the Division's credit judgment, be less.

(3) *Interest rate*. This may not exceed the amount the Division deems reasonable.

(4) *Prepayment penalty*. The Division will allow a reasonable prepayment penalty, but the guarantor will not guarantee a notemaker's payment of it.

(5) *Form*. This will be the simple promissory note (with the guarantee attached) the Division prescribes, promising only to pay principal, interest, and prepayment penalty.

(6) *Sole security*. The guaranteed note and the guarantee will be the noteholder's sole security.

(b) *U.S. note and security documents*—

(1) *Form*. The U.S. note and security documents will be in the form the Division prescribes.

(2) *U.S. note*. This exists to evidence the notemaker's actual and contingent liability to the guarantor (contingent if the guarantor does not pay the guaranteed note (including any portion of it), on the notemaker's behalf or if the guarantor does not advance any other amounts or incur any other expenses on the notemaker's behalf to protect

the U.S. or accommodate the notemaker; actual if, and to the same monetary extent that, the guarantor does). Payment of the guaranteed note by anyone but the guarantor will amortize the original principal balance (and interest accruing on it) of the U.S. note to the same extent that it amortizes the guaranteed note. The U.S. note will, among other things, contain provisions for adding to its principal balance all amounts the Program advances, or expenses it incurs, to protect the U.S. or accommodate the notemaker.

(3) *Security documents.* The Division will, at a minimum, require a pledge of all project property (or adequate substitute collateral). The Division will require such other security as it deems the circumstances of each notemaker and project require to protect the U.S. All security documents will secure the U.S. note. The security documents will, among other things, contain provisions for adding to the U.S. note all Program advances, expenditures, and expenses required to protect the U.S. or accommodate the notemaker.

(4) *Recourse.* Significant Program reliance, as a secondary means of repayment, on the net worths of parties other than the notemaker will ordinarily require secured recourse against those net worths. Recourse may be by a repayment guarantee or irrevocable letter of credit. Ordinarily, the Division will require recourse against: All major shareholders of a closely-held corporate notemaker, the parent corporation of a subsidiary corporate notemaker without substantial pledged assets other than the project property, and all major limited partners. The Division may also require recourse against others it deems necessary to protect the U.S. The principal parties in interest, who ultimately stand most to benefit from the project, should ordinarily be held financially accountable for the project's performance. Where otherwise appropriate recourse is unavailable, the conservatively projected net liquidating value of the notemaker's assets pledged to the Program must, in the Division's credit judgment, substantially exceed all projected Program exposure.

(c) *Dual-use CCF.* For a vessel, the Division may require annually depositing some portion of the project property's net income into a dual-use CCF. A dual-use CCF provides the normal CCF tax-deferral benefits, but also both gives the Program control of CCF withdrawals and recourse against CCF deposits and ensures an emergency refurbishing reserve (tax-deferred) for project property.

#### **§253.13 Ability and experience requirements.**

A notemaker and the majority of its principals must generally have the ability, experience, resources, character, reputation, and other qualifications the Division deems necessary for successfully operating the project property and protecting the U.S. The Program will ordinarily not provide guarantees: For venture capital purposes; to a notemaker whose principals are all from outside the industry; or for a notemaker the majority of whose principals cannot document successful industry ability and experience of a duration, degree, and nature consistent with protecting the U.S.

#### **§253.14 Economic and financial requirements.**

(a) *Income and expense projections.* The Division's conservative income and expense projections for the project property's operation must prospectively indicate net earnings that can service all debt, properly maintain the project property, and protect the U.S. against the industry's cyclical economics and other risks of loss.

(b) *Working capital.* The Division's conservative assessment of an applicant's financial condition must indicate initial working capital prospectively sufficient to provide for the project property to achieve net earnings projections, fund all foreseeable contingencies, and protect the U.S. At the Division's discretion, some portion of projected working capital needs may be met by something other than current assets minus current liabilities (i.e., by a line or letter of credit, non-current assets readily capable of generating working capital, a guarantor with sufficient financial resources, etc.).

(c) *Audited financial statements.* These will ordinarily be required for any notemaker with large or financially extensive operations whose financial condition the Division believes it cannot otherwise assess with reasonable certainty.

(d) *Consultant services.* Infrequently, expert consulting services may be necessary to help the Division assess a project's economic, technical, or financial feasibility. The Division will select and employ the necessary consultant, but require the applicant to reimburse the Division. A subsequently approved application will not be closed until the applicant reimburses the Division. This cost may, at the Division's discretion, be included in a guaranteed note's amount. For a declined application, the Division may reimburse itself from the remaining 25 percent of the application fee.

#### § 253.15 Miscellaneous.

(a) *Applicant.* Only the legal title holder of project property (or the lessee of an appropriate long-term financing lease) may apply for a guarantee. Applicants must submit an "Application for Fisheries Obligation Program Guarantee" to the appropriate NMFS Regional Financial Services Branch to be considered for a guaranteed loan.

(b) *Investigation and approval.* The Division shall do a due diligence investigation of every application it accepts and determine if, in the Division's sole judgment, the application is eligible and qualified. Applications the Division deems ineligible or unqualified will be declined. The Division will approve eligible and qualified applications based on the applicability of the information obtained during the application and investigation process to the programmatic goals and financial requirements of the program and under terms and conditions that, in the Division's sole discretion, protect the U.S. The Division will state these terms and conditions in its approval in principal letter.

(c) *Insurance.* All property and other risks shall be continuously insured during the term of the U.S. note. Insurers must be acceptable to the Division. Insurance must be in such forms and amounts and against such risks as the

Division deems necessary to protect the U.S. Insurance must be endorsed to include the requirements the U.S., as respects its interest only, deems necessary to protect the U.S. (e.g., the Program will ordinarily be an additional insured as well as the sole loss payee for the amount of its interest; cancellation will require 20 days' advance written notice; vessel seaworthiness will be admitted, and the Program will be adequately protected against other insureds' breaches of policy warranties, negligence, omission, etc.)

(d) *Property inspections.* The Division will require adequate condition and valuation inspection of all property as the basis for assessing the property's worth and suitability for guarantee. The Division may also require these at specified periods during guarantee life. These must be conducted by competent and impartial inspectors acceptable to the Division. Inspection cost will be at an applicant's expense. Those occurring before application approval may be included in actual cost.

(e) *Guarantee terms and conditions.* The Division's approval in principle letter shall specify the terms and conditions of the guarantor's willingness to guarantee. These shall be incorporated in closing documents that the Division prepares. Terms and conditions are at the Division's sole discretion. An applicant's nonacceptance will result in disqualification for guarantee.

(f) *Noteholder.* The Division will, as a gratuitous service, request parties interested in investing in guaranteed notes to submit offers to fund each prospective guaranteed note. The Division and the applicant will, by mutual consent, choose the responsive bidder, which ordinarily will be the prospective noteholder whose bid represents the lowest net effective annual cost of capital. Until the Division has closed the guarantee, arrangements between an applicant and a prospective noteholder are a matter of private contract between them, and the Program is not responsible to either for non-performance by the other.

(g) *Closing—(1) Approval in principle letters.* Every closing will be in strict accordance with a final approval in principle letter.

(2) *Contracts.* The guaranteed note, U.S. note, and security documents will ordinarily be on standard Program forms that may not be altered without Divisional approval. The Division will ordinarily prepare all contracts, except certain pledges involving real property, which will be prepared by each notemaker's attorney at the direction and approval of the Division's attorney.

(3) *Closing schedules.* The Division will ordinarily close guarantee transactions with minimal services from applicants' attorneys, except where real property pledges or other matters appropriate for private counsel are involved. Real property services required from an applicant's attorney may include: Title search, mortgage and other document preparation, execution and recording, escrow and disbursement, and a legal opinion and other assurances. An applicant's attorney's expense, and that of any other private contractor required, is for applicant's account. Attorneys and other contractors must be satisfactory to the Division. The Division will attempt to meet reasonable closing schedules, but will not be liable for adverse interest-rate fluctuations, loss of commitments, or other consequences of being unable to meet an applicant's and a prospective noteholder's closing schedule. These parties should work closely with the Division to ensure a closing schedule the Division can meet.

**§ 253.16 Fees.**

(a) *Application fee.* The Division will not accept an application without the application fee. Fifty percent of the application fee is fully earned at application acceptance, and is not refundable. The rest is fully earned when the Division issues an approval in principal letter, and it is refundable only if the Division declines an application or an applicant requests refund before the Division issues an approval in principal letter.

(b) *Guarantee fee.* Each guarantee fee will be due in advance and will be based on the guaranteed note's repayment provisions for the prospective year. The first annual guarantee fee is due at guarantee closing. Each subsequent

one is due and payable on the guarantee closing's anniversary date. Each is fully earned when due, and shall not subsequently be refunded for any reason.

(c) *Refinancing or assumption fee.* This fee applies only to refinancing or assuming existing guaranteed notes. It is due upon application for refinancing or assuming a guaranteed note. It is fully earned when due and shall be non-refundable. The Division may waive a refinancing or assumption fee's payment when the refinancing or assumption's primary purpose is to protect the U.S.

(d) *Where payable.* Fees are payable by check made payable to "NMFS/FSFF." Other than those collected at application or closing, fees are payable by mailing checks to: U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, P.O. Box 73004, Chicago, Ill. 60673. To ensure proper crediting, each check must include the official case number the Division assigns to each guarantee.

**§ 253.17 Demand and payment.**

Every demand must be delivered in writing to the Division. Each must include the noteholder's certified record of the date and amount of each payment made on the guaranteed note and the manner of its application. Should the Division not acknowledge receipt of a timely demand, the noteholder must possess evidence of the demand's timely delivery.

**§ 253.18 Program operating guidelines.**

The Division may issue Program operating guidelines, as the need arises, governing national Program policy and administrative issues not addressed by these rules.

**§ 253.19 Default and liquidation.**

Upon default of the security documents, the Division shall take such remedial action (including, where appropriate, liquidation) as it deems best able to protect the U.S.' interest.

### Subpart C—Interjurisdictional Fisheries

#### § 253.20 Definitions.

The terms used in this subpart have the following meanings:

*Act* means the Interjurisdictional Fisheries Act of 1986, Public Law 99-659 (Title III).

*Adopt* means to implement an interstate fishery management plan by State action or regulation.

*Commercial fishery failure* means a serious disruption of a fishery resource affecting present or future productivity due to natural or undetermined causes. It does not include either:

(1) The inability to harvest or sell raw fish or manufactured and processed fishery merchandise; or

(2) Compensation for economic loss suffered by any segment of the fishing industry as the result of a resource disaster.

*Enforcement agreement* means a written agreement, signed and dated, between a state agency and either the Secretary of the Interior or Secretary of Commerce, or both, to enforce Federal and state laws pertaining to the protection of interjurisdictional fishery resources.

*Federal fishery management plan* means a plan developed and approved under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*).

*Fisheries management* means all activities concerned with conservation, restoration, enhancement, or utilization of fisheries resources, including research, data collection and analysis, monitoring, assessment, information dissemination, regulation, and enforcement.

*Fishery resource* means finfish, mollusks, and crustaceans, and any form of marine or Great Lakes animal or plant life, including habitat, other than marine mammals and birds.

*Interjurisdictional fishery resource* means:

(1) A fishery resource for which a fishery occurs in waters under the jurisdiction of one or more states and the U.S. Exclusive Economic Zone; or

(2) A fishery resource for which an interstate or a Federal fishery management plan exists; or

(3) A fishery resource which migrates between the waters under the jurisdiction of two or more States bordering on the Great Lakes.

*Interstate Commission* means a commission or other administrative body established by an interstate compact.

*Interstate compact* means a compact that has been entered into by two or more states, established for purposes of conserving and managing fishery resources throughout their range, and consented to and approved by Congress.

*Interstate Fisheries Research Program* means research conducted by two or more state agencies under a formal interstate agreement.

*Interstate fishery management plan* means a plan for managing a fishery resource developed and adopted by the member states of an Interstate Marine Fisheries Commission, and contains information regarding the status of the fishery resource and fisheries, and recommends actions to be taken by the States to conserve and manage the fishery resource.

*Landed* means the first point of off-loading fishery resources.

*NMFS Regional Director* means the Director of any one of the five National Marine Fisheries Service regions.

*Project* means an undertaking or a proposal for research in support of management of an interjurisdictional fishery resource or an interstate fishery management plan.

*Research* means work or investigative study, designed to acquire knowledge of fisheries resources and their habitat.

*Secretary* means the Secretary of Commerce or his/her designee.

*State* means each of the several states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, or the Commonwealth of the Northern Mariana Islands.

*State Agency* means any department, agency, commission, or official of a state authorized under the laws of the State to regulate commercial fisheries or enforce laws relating to commercial fisheries.

*Value* means the monetary worth of fishery resources used in developing the apportionment formula, which is equal to the price paid at the first point of landing.

*Volume* means the weight of the fishery resource as landed, at the first point of landing.

**§ 253.21 Apportionment.**

(a) Apportionment formula. The amount of funds apportioned to each state is to be determined by the Secretary as the ratio which the equally weighted average of the volume and value of fishery resources harvested by domestic commercial fishermen and landed within such state during the 3 most recent calendar years for which data satisfactory to the Secretary are available bears to the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen and landed within all of the states during those calendar years.

(1) The equally weighted average value is determined by the following formula:

$$\frac{\text{Volume of X State}}{\text{Volume of all States}} = A \text{ percent}$$

$$\frac{\text{Value of X State}}{\text{Value of all States}} = B \text{ percent}$$

$$\frac{[A\% + B\%]}{2} = \text{State percentage used to determine state's share of the total available funds}$$

(2) Upon appropriation of funds by Congress, the Secretary will take the following actions:

- (i) Determine each state's share according to the apportionment formula.
- (ii) Certify the funds to the respective NMFS Regional Director.
- (iii) Instruct NMFS Regional Directors to promptly notify states of funds' availability.

(b) No state, under the apportionment formula in paragraph (a) of this section, that has a ratio of one-third of 1 percent or higher may receive an apportionment for any fiscal year that is less than 1 percent of the total amount of funds available for that fiscal year.

(c) If a State's ratio under the apportionment formula in paragraph (b) of this section is less than one-third of 1 percent, that state may receive funding if the state:

(1) Is signatory to an interstate fishery compact;

(2) Has entered into an enforcement agreement with the Secretary and/or the Secretary of the Interior for a fishery that is managed under an interstate fishery management plan;

(3) Borders one or more of the Great Lakes;

(4) Has entered into an interstate cooperative fishery management agreement and has in effect an interstate fisheries management plan or an interstate fisheries research program; or

(5) Has adopted a Federal fishery management plan for an interjurisdictional fishery resource.

(d) Any state that has a ratio of less than one-third of 1 percent and meets any of the requirements set forth in paragraphs (c) (1) through (5) of this section may receive an apportionment for any fiscal year that is not less than 0.5 percent of the total amount of funds available for apportionment for such fiscal year.

(e) No state may receive an apportionment under this section for any fiscal year that is more than 6 percent of the total amount of funds available for apportionment for such fiscal year.

(f) Unused apportionments. Any part of an apportionment for any fiscal year to any state:

(1) That is not obligated during that year;

(2) With respect to which the state notifies the Secretary that it does not wish to receive that part; or

(3) That is returned to the Secretary by the state, may not be considered to be appropriated to that state and must be added to such funds as are appropriated for the next fiscal year. Any notification or return of funds by a state referred to in this section is irrevocable.

**§ 253.22 State projects.**

(a) *General*—(1) *Designation of state agency.* The Governor of each state shall notify the Secretary of which agency of the state government is authorized under its laws to regulate commercial fisheries and is, therefore, designated receive financial assistance awards. An official of such agency shall certify which official(s) is authorized

in accordance with state law to commit the state to participation under the Act, to sign project documents, and to receive payments.

(2) States that choose to submit proposals in any fiscal year must so notify the NMFS Regional Director before the end of the third quarter of that fiscal year.

(3) Any state may, through its state agency, submit to the NMFS Regional Director a completed NOAA Grants and Cooperative Agreement Application Package with its proposal for a project, which may be multiyear. Proposals must describe the full scope of work, specifications, and cost estimates for such project.

(4) States may submit a proposal for a project through, and request payment to be made to, an Interstate Fisheries Commission. Any payment so made shall be charged against the apportionment of the appropriate state(s). Submitting a project through one of the Commissions does not remove the matching funds requirement for any state, as provided in paragraph (c) of this section.

(b) *Evaluation of projects.* The Secretary, before approving any proposal for a project, will evaluate the proposal as to its applicability, in accordance with 16 U.S.C. 4104(a)(2).

(c) *State matching requirements.* The Federal share of the costs of any project conducted under this subpart, including a project submitted through an Interstate Commission, cannot exceed 75 percent of the total estimated cost of the project, unless:

(1) The state has adopted an interstate fishery management plan for the fishery resource to which the project applies; or

(2) The state has adopted fishery regulations that the Secretary has determined are consistent with any Federal fishery management plan for the species to which the project applies, in which case the Federal share cannot exceed 90 percent of the total estimated cost of the project.

(d) *Financial assistance award.* If the Secretary approves or disapproves a proposal for a project, he or she will promptly give written notification, including, if disapproved, a detailed ex-

planation of the reason(s) for the disapproval.

(e) *Restrictions.* (1) The total cost of all items included for engineering, planning, inspection, and unforeseen contingencies in connection with any works to be constructed as part of such a proposed project shall not exceed 10 percent of the total cost of such works, and shall be paid by the state as a part of its contribution to the total cost of the project.

(2) The expenditure of funds under this subpart may be applied only to projects for which a proposal has been evaluated under paragraph (b) of this section and approved by the Secretary, except that up to \$25,000 each fiscal year may be awarded to a state out of the state's regular apportionment to carry out an "enforcement agreement." An enforcement agreement does not require state matching funds.

(f) *Prosecution of work.* All work must be performed in accordance with applicable state laws or regulations, except when such laws or regulations are in conflict with Federal laws or regulations such that the Federal law or regulation prevails.

#### §253.23 Other funds.

(a) *Funds for disaster assistance.* (1) The Secretary shall retain sole authority in distributing any disaster assistance funds made available under section 308(b) of the Act. The Secretary may distribute these funds after he or she has made a thorough evaluation of the scientific information submitted, and has determined that a commercial fishery failure of a fishery resource arising from natural or undetermined causes has occurred. Funds may only be used to restore the resource affected by the disaster, and only by existing methods and technology. Any fishery resource used in computing the states' amount under the apportionment formula in §253.21(a) will qualify for funding under this section. The Federal share of the cost of any activity conducted under the disaster provision of the Act shall be limited to 75 percent of the total cost.

## § 253.24

(2) In addition, pursuant to section 308(d) of the Act, the Secretary is authorized to award grants to persons engaged in commercial fisheries, for uninsured losses determined by the Secretary to have been suffered as a direct result of a fishery resource disaster. Funds may be distributed by the Secretary only after notice and opportunity for public comment of the appropriate limitations, terms, and conditions for awarding assistance under this section. Assistance provided under this section is limited to 75 percent of an uninsured loss to the extent that such losses have not been compensated by other Federal or State programs.

(b) *Funds for interstate commissions.* Funds authorized to support the efforts of the three chartered Interstate Marine Fisheries Commissions to develop and maintain interstate fishery management plans for interjurisdictional fisheries will be divided equally among the Commissions.

### § 253.24 Administrative requirements.

Federal assistance awards made as a result of this Act are subject to all Federal laws, Executive Orders, Office of Management and Budget Circulars as incorporated by the award; Department of Commerce and NOAA regulations; policies and procedures applicable to Federal financial assistance awards; and terms and conditions of the awards.

## PART 259—CAPITAL CONSTRUCTION FUND

### JOINT TAX REGULATIONS

Sec.

259.1 Execution of agreements and deposits made in a Capital Construction Fund.

#### CAPITAL CONSTRUCTION FUND AGREEMENT

259.30 Application for Interim Capital Construction Fund Agreement ("Interim CCF Agreement").

259.31 Acquisition, construction, or reconstruction.

259.32 Conditional fisheries.

259.33 Constructive deposits and withdrawals; ratification of withdrawals (as qualified) made without first having obtained Secretary's consent; first tax year for which Interim CCF Agreement is effective.

## 50 CFR Ch. II (10–1–97 Edition)

259.34 Minimum and maximum deposits; maximum time to deposit.

259.35 Annual deposit and withdrawal reports required.

259.36 CCF accounts.

259.37 Conditional consents to withdrawal qualification.

259.38 Miscellaneous.

AUTHORITY: 46 U.S.C. 1177.

### JOINT TAX REGULATIONS

#### § 259.1 Execution of agreements and deposits made in a Capital Construction Fund.

In the case of a taxable year of a taxpayer beginning after December 31, 1969, and before January 1, 1972, the rules governing the execution of agreements and deposits under such agreements shall be as follows:

(a) A capital construction fund agreement executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years will be deemed to be effective on the date of the execution of such agreement or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(b) Notwithstanding the provisions of paragraph (a) of this section, where:

(1) For taxable years beginning after December 31, 1969, and prior to January 1, 1971, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1972, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1972, and

(2) For taxable years beginning after December 31, 1970, and prior to January 1, 1972, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1973, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1973 (or, if earlier, 60 days after the publication of final joint regulations under section 607 of the Merchant Marine Act, 1936, as amended); then such a capital construction fund agreement will be deemed to be effective as of the close of business of the last regular business day of each such taxable year or years to which such deposit related.

(c)(1) Deposits made in a capital construction fund pursuant to such an agreement within 60 days after the date of execution of the agreement, or on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years, whichever date shall be later, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(2) Notwithstanding paragraph (c)(1) of this section, for taxable years beginning after December 31, 1970, and ending prior to January 1, 1972, deposits made later than the last date permitted under paragraph (c)(1) of this section but on or before January 9, 1973, in a capital construction fund pursuant to an agreement with the Secretary of Commerce, acting by and through the Administrator of the National Oceanic and Atmospheric Administration, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of such taxable year, whichever is earlier.

(d) Nothing in this section shall alter the rules and regulations governing the timing of deposits with respect to existing capital and special reserve funds or with respect to the treatment of deposits for any taxable year or years other than a taxable year or years beginning after December 31, 1969, and before January 1, 1972.<sup>1</sup>

[37 FR 25025, Nov. 25, 1972, as amended at 38 FR 8163, Mar. 29, 1973]

#### CAPITAL CONSTRUCTION FUND AGREEMENT

SOURCE: Sections 259.30 to 259.38 appear at 39 FR 33675, Sept. 19, 1974, unless otherwise noted.

<sup>1</sup>The phrase "existing capital and special reserve funds" does not refer to the Capital Construction Fund program but rather to funds established with the Maritime Administration prior to the amendment of the Merchant Marine Act, 1936, which authorized the Capital Construction Fund program.

#### § 259.30 Application for Interim Capital Construction Fund Agreement ("Interim CCF Agreement").

(a) *General qualifications.* To be eligible to enter into an Interim CCF Agreement an applicant must:

(1) Be a citizen of the United States (citizenship requirements are those for documenting vessels in the coastwise trade within the meaning of section 2 of the Shipping Act, 1916, as amended);

(2) Own or lease one or more eligible vessels (as defined in section 607(k)(1) of the Act) operating in the foreign or domestic commerce of the United States.

(3) Have an acceptable program for the acquisition, construction, or reconstruction of one or more qualified vessels (as defined in section 607(k)(2) of the Act). Qualified vessels must be for commercial operation in the fisheries of the United States. If the qualified vessel is 5 net tons or over, it must be documented in the fisheries of the United States. Dual documentation in both the fisheries and the coastwise trade of the United States is permissible. Any vessel which will carry fishing parties for hire must be inspected and certified (under 46 CFR part 176) by the U.S. Coast Guard as qualified to carry more than six passengers or demonstrate to the Secretary's satisfaction that the carrying of fishing parties for hire will constitute its primary activity. The program must be a firm representation of the applicant's actual intentions. Vague or contingent objectives will not be acceptable.

(b) *Content of application.* Applicants seeking an Interim CCF Agreement may make application by letter providing the following information:

(1) Proof of U.S. citizenship;

(2) The first taxable year for which the Interim CCF Agreement is to apply (see § 259.33 for the latest time at which applications for an Interim CCF Agreement relating to a previous taxable year may be received);

(3) The following information regarding each "eligible vessel" which is to be incorporated in Schedule A of the Interim CCF Agreement for purposes of making deposits into a CCF pursuant to section 607 of the Act:

(i) Name of vessel,

(ii) Official number, or, in the case of vessels under 5 net tons, the State registration number where required,

(iii) Type of vessel (i.e., catching vessel, processing vessel, transporting vessel, charter vessel, barge, passenger carrying fishing vessel, etc.),

(iv) General characteristic (i.e., net tonnage, fish-carrying capacity, age, length, type of fishing gear, number of passengers carried or in the case of vessels operating in the foreign or domestic commerce the various uses of the vessel, etc.),

(v) Whether owned or leased and, if leased, the name of the owner, and a copy of the lease,

(vi) Date and place of construction,

(vii) If reconstructed, date of redelivery and place of reconstruction,

(viii) Trade (or trades) in which vessel is documented and date last documented,

(ix) If a fishing vessel, the fishery of operation (which in this section means each species or group of species—each species must be specifically identified by acceptable common names—of fish, shellfish, or other living marine resources which each vessel catches, processes, or transports or will catch, process, or transport for commercial purposes such as marketing or processing the catch),

(x) If a fishing vessel, the area of operation (which for fishing vessels means the general geographic areas in which each vessel will catch, process, or transport, or charter for each species or group of species of fish, shellfish, or other living marine resources).

(4) The specific objectives to be achieved by the accumulation of assets in a Capital Construction Fund (to be incorporated in Schedule B of the Interim CCF Agreement) including:

(i) Number of vessels,

(ii) Type of vessel (i.e., catching, processing, transporting, or passenger carrying fishing vessel),

(iii) General characteristics (i.e., net tonnage, fish-carrying capacity, age, length, type of fishing gear, number of passengers carried),

(iv) Cost of projects,

(v) Amount of indebtedness to be paid for vessels to be constructed, acquired, or reconstructed (all notes, mortgages, or other evidences of the indebtedness

must be submitted as soon as available, together with sufficient additional evidence to establish that full proceeds of the indebtedness to be paid from a CCF under an Interim CCF Agreement, were used solely for the purpose of the construction, acquisition, or reconstruction of Schedule B vessels),

(vi) Date of construction, acquisition, or reconstruction,

(vii) Fishery of operation (which in this section means each species or group of species—each species must be specifically identified by acceptable common name—of fish, shellfish, or other living marine resources),

(viii) Area of operation (which in this section means the general geographic areas in which each vessel will operate for each species or group of species of fish, shellfish, or other living marine resources).

(c) *Filing.* The application must be signed and submitted in duplicate to the Regional Office of the National Marine Fisheries Service's Financial Assistance Division corresponding to the region in which the party conducts its business. As a general rule, the Interim CCF Agreement must be executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of the Federal tax return in order to be effective for the tax year to which that return relates. It is manifestly in the Applicant's best interest to file at least 45 days in advance of such date.

[39 FR 33675, Sept. 19, 1974, as amended at 42 FR 65185, Dec. 30, 1978]

#### **§259.31 Acquisition, construction, or reconstruction.**

(a) *Acquisition.* No vessel having previously been operated in a fishery of the United States prior to its acquisition by the party seeking CCF withdrawal therefor shall be a qualified vessel for the purpose of acquisition, except in the cases specified in paragraphs (a)(1) and (2) of this section:

(1) A vessel not more than 5 years old, at the time of its acquisition by the party seeking CCF withdrawal therefor may be a qualified vessel for the purpose of acquisition, but only if each acquisition in this category becomes a Schedule A vessel and there

exists for each acquisition in this category (on a one-for-one basis) an additional Schedule B construction or reconstruction. The sole consideration for permitting an acquisition in this category is that it will enable the party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the additional Schedule B construction or reconstruction. Should this consideration materially fail, the Secretary shall, at his discretion, disqualify previously qualified withdrawals in this category, seek liquidated damages as provided for in paragraph (a)(4) of this section and/or terminate the Interim CCF Agreement.

(2) A vessel more than 5 years old, but not more than 25 years old (special showing required if more than 25 years old, see paragraph (b) of this section), at the time of acquisition by the party seeking CCF withdrawal therefor may be a qualified vessel for the purpose of acquisition, but only if that same vessel becomes a Schedule A vessel and (in addition to being a Schedule B vessel for the purpose of its acquisition) becomes a Schedule B vessel for the purpose of that same vessel's reconstruction to be accomplished ordinarily within 7 years from the date of acquisition. The sole consideration for permitting an acquisition in this category is that it will enable a party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the Schedule B reconstruction of the vessel so acquired. Should this consideration materially fail, the same penalty prescribed in paragraph (a)(1) of this section applies.

(3) Reserved for minimum deposits under this section.

(4) Reserved for liquidated damages.

(b) *Reconstruction.* No reconstruction project costing less than \$100,000 shall qualify a vessel for reconstruction, unless the reconstruction project costs, or will cost, 20 percent or more of the reconstructed vessel's acquisition cost (in its unreconstructed state) to the party seeking CCF withdrawal therefor. If the reconstruction project meets the \$100,000 test, then the 20 percent test does not apply. Conversely, if the reconstruction project does not meet

the \$100,000 test, then the 20 percent test applies.

(1) Reconstruction may include rebuilding, replacing, reconditioning, converting and/or improving any portion of a vessel. A reconstruction project must, however, substantially prolong the useful life of the reconstructed vessel, increase its value, or adapt it to a different commercial use in the fishing trade or industry.

(2) All, or the major portion (ordinarily, not less than 80 percent), of a reconstruction project's actual cost must (for the purpose of meeting the above dollar or percentage tests) be classifiable as a capital expenditure for Internal Revenue Service (IRS) purposes. That otherwise allowable (i.e., for the purpose of meeting the above dollar or percentage tests) portion of a reconstruction project's actual cost which is not classifiable as a capital expenditure shall, however, be excluded from the amount qualified for withdrawal as a result of the reconstruction project.

(3) No vessel more than 25 years old at the time of withdrawal or request for withdrawal shall be a qualified vessel for the purpose of reconstruction unless a special showing is made, to the Secretary's discretionary satisfaction, that the type and degree of reconstruction intended will result in an efficient and productive vessel with an economically useful life at least 10 years beyond the date reconstruction is completed.

(c) *Time permitted for construction or reconstruction.* Construction or reconstruction must be completed within 18 months from the date construction or reconstruction first commences, unless otherwise consented to by the Secretary.

(d) *Energy saving improvements.* An improvement made to a vessel to conserve energy shall, regardless of cost, be treated as a reconstruction for the purpose of qualifying a CCF withdrawal for such expenditure and shall be exempted from having to meet conditional fishery requirements for reconstruction as set forth in §259.32 and from all qualifying tests for reconstruction set forth in paragraph (b) of this section with the following exceptions:

(1) An energy saving improvement shall be required to meet both conditional fishery requirements and the qualifying tests for reconstruction if it serves the dual purpose of saving energy and meeting the reconstruction requirement of paragraph (a) of this section for qualifying a withdrawal for the acquisition of a used vessel.

(2) That portion of the actual cost of an energy saving improvement which is to be paid for from the CCF must be classifiable and treated as a capital expenditure for Internal Revenue Service purposes.

(e) *Safety projects.* The acquisition and installation of safety equipment for a qualified vessel and vessel modifications whose central purpose is materially increasing the safety of a qualified vessel or the acquisition and installation of equipment required by law or regulation that materially increases the safety of a qualified vessel shall, regardless of cost, be treated as reconstruction for the purpose of qualifying a CCF withdrawal for such expenditure, shall be exempt from having to meet conditional fishery requirements for reconstruction as set forth in § 259.32, and shall be exempt from all qualifying tests for reconstruction set forth in paragraph (b) of this section, with the following exceptions:

(1) A safety improvement shall be required to meet both conditional fishery requirements and all qualifying tests for reconstruction if it serves the dual purpose of safety and meeting the reconstruction requirement of paragraph (a) of this section for qualifying a withdrawal for the acquisition of a used vessel;

(2) That portion of the actual cost of a safety improvement that is to be paid for from the CCF must be classifiable and treated as a capital expenditure for Internal Revenue Service purposes;

(3) Safety improvement projects whose clear and central purpose is restricted to complying with the requirements of the Commercial Fishing Industry Vessel Safety Act of 1988 (Public Law 100-424 Sec. 1, 102 stat. 1585 (1988) (codified in scattered sections of 46 U.S.C.)) shall, without further documentation, be considered to fall within this paragraph (e). Satisfactory documentation will be required for all other

projects proposed to be considered as falling within this paragraph (e). Projects not required by law or regulation whose central purpose clearly involves something other than an improvement that materially increases the safety of a vessel will not be considered to fall within this paragraph (e).

[39 FR 33675, Sept. 19, 1974, as amended at 46 FR 54563, Nov. 3, 1981; 62 FR 331, Jan. 3, 1997]

**§ 259.32 Conditional fisheries.**

(a) The Secretary may from time-to-time establish certain fisheries in which CCF benefits will be restricted. The regulatory mechanism for so doing is part 251 of this chapter. Each fishery so restricted is termed a "conditional fishery". Subpart A of part 251 of this chapter establishes the procedure to be used by the Secretary in proposing and adopting a fishery as a conditional fishery. Subpart B of part 251 of this chapter enumerates each fishery actually adopted as a conditional fishery (part 251 of this chapter should be referred to for details). The purpose of this § 259.32 is to establish the effect of conditional fishery adoption upon Interim CCF Agreements.

(b) If a written request for an otherwise permissible action under an Interim CCF Agreement is submitted prior to the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the subsequent adoption of a conditional fishery (even, if that adoption occurs before the Secretary gives his consent or issues an Interim CCF Agreement or amendment thereto, all as the case may be). Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.

(c) If a written request for an otherwise permissible action under an Interim CCF Agreement, or an application for an Interim CCF Agreement, is submitted after the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the previous adoption of a conditional fishery

provided, however, that this paragraph shall apply only to construction or reconstruction for which a binding contract has been reduced to writing prior to the date upon which conditional fishery adoption occurred. Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.

(d) Conditional fishery adoption shall have no effect whatsoever upon a Schedule B objective whose qualification for withdrawal (which may be in an amount equal to the total cost over time of a Schedule B objective, i.e., a series of withdrawals) has been, prior to the date of conditional fishery adoption, either consented to by the Secretary or requested in accordance with paragraph (b) or (c) of this section. This extends to past, present, and future withdrawals in an amount representing up to 100 percent of the cost of a Schedule B objective. Commencement of any project in these categories shall, however, be started not later than 6 months from the date of conditional fishery adoption and shall be completed within 24 months from the date of conditional fishery adoption, unless for good and sufficient cause shown the Secretary, at his discretion, consents to a longer period for either project commencement or completion. Consent to the qualification of withdrawal for any project in these categories not commenced or completed within the periods allowed shall be revoked at the end of the periods allowed.

(e) Conditional fishery adoption shall have no effect whatsoever upon Schedule B objectives which will not result in significantly increasing harvesting capacity in a fishery adopted as a conditional fishery.

(1) Construction of a new vessel (vessel "Y") for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that fishery unless the party causing the "Y" vessel to be constructed causes (within 1 year after the delivery of vessel "Y") to be permanently removed from all fishing, or placed permanently in a fishery not then adopted as a conditional fishery, under such conditions as the Secretary may deem necessary or desirable, a

vessel (vessel "Z") which has during the previous 18 months operated substantially in the same fishery as the "Y" vessel and which has a fishing capacity substantially equivalent to the "Y" vessel. Failure to remove a vessel could subject all withdrawals to be treated as nonqualified and may be cause for termination of the CCF. What constitutes substantially equivalent fishing capacity shall be a matter for the Secretary's discretion. Ordinarily, in exercising his discretion about what does or does not constitute substantially equivalent fishing capacity, the Secretary will take into consideration (i) the average size of vessels constructed for the adopted conditional fishery in question at the time vessel "Z" was constructed (or, if constructed for a different fishery, the average size of vessels in the adopted conditional fishery at the time vessel "Z" entered it), (ii) the average size of vessels constructed for the adopted conditional fishery at the time vessel "Y" was or will be constructed, and (iii) such other factors as the Secretary may deem material and equitable, including the length of time the party had owned or leased vessel "Z" and the length of time the vessel has operated in the conditional fishery. The Secretary will consider these factors, and exercise his discretion, in such a way as to encourage use of this program by established fishermen who have owned or leased for substantial periods vessels which need to be replaced, even though a "Z" vessel may have been constructed at a time which dictated a lesser fishing capacity than dictated for a "Y" vessel at the time of its construction.

(2) Acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that fishery unless the vessel to be acquired and/or reconstructed had during the previous 3 years operated substantially in the same fishery as the adopted conditional fishery in which it will operate after acquisition and/or reconstruction. If less than 3 years, then acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that

fishery unless there occurs vessel removal or permanent placement elsewhere under the same conditions specified for construction in paragraph (e)(1) of this section.

(3) Construction of a new vessel or the acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall not be deemed to significantly increase the harvesting capacity where the vessel constructed, acquired and/or reconstructed replaces another vessel which was lost or destroyed and which had, immediately prior to the loss or destruction, operated in the same fishery as the adopted conditional fishery, provided, however, that the fishing capacity of the replacement vessel has a fishing capacity substantially equivalent to the vessel lost or destroyed and that the construction, acquisition and/or reconstruction is completed within 2 years after the close of the taxable year in which the loss or destruction occurred. The Secretary may, at his discretion, and for good and sufficient cause shown, extend the replacement period, provided that the request for extension of time to replace is timely filed with the Secretary.

(f) Conditional fishery adoption shall have the following effect on all Schedule B objectives (whether for acquisition, construction, or reconstruction) which the Secretary deems to significantly increase harvesting capacity in that fishery, excluding those circumstances specifically exempted by paragraphs (b) through (e) of this section (which shall be governed by the provisions of paragraphs (b) through (e) of this section).

(1) The Secretary may nevertheless consent to the qualification of withdrawal, but only up to an amount not exceeding the total of eligible ceilings actually deposited during tax years other than the taxable year in which conditional fishery adoption occurs plus a pro-rata portion of eligible ceilings generated in the tax year in which conditional fishery adoption occurs. Pro-rata shall be according to the number of months or any part thereof in a party's tax year which elapse before the adoption of the conditional fishery occurs. For example, if a party's tax year runs from January 1, 1974,

to December 31, 1974, and conditional fishery adoption occurs on August 15, 1974, (i.e., during the 8th month of the party's tax year), then the pro-rata portion for that year is eight-twelfths of the total eligible ceilings generated during that year.

(2) Qualified withdrawals in excess of the amount specified in paragraph (f)(1) of this section shall not, during the continuance of the adopted conditional fishery, be consented to. Parties at this point shall have the following option:

(i) Make, with the Secretary's consent, a nonqualified withdrawal of the excess and discontinue the future deposit of eligible ceilings (which may effect termination of the Interim CCF Agreement).

(ii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective not then involving an adopted conditional fishery. If amendment of an Interim CCF Agreement is necessary in order to include a Schedule B objective not then involving an adopted conditional fishery, the party may, with the Secretary's consent, make the necessary amendment.

(iii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective involving a then adopted conditional fishery in anticipation that the then adopted conditional fishery will eventually be disadopted, in which case all deposits of eligible ceilings will once again be eligible for the Secretary's consent as qualified withdrawals. If the adoption of a conditional fishery continues for a substantial length of time and there is no foreseeable prospect of disadoption, then the Secretary, in his discretion, may require paragraph (f)(2)(i) or (ii) of this section to be effected.

(g) The Secretary shall neither enter into a new Interim CCF Agreement, nor permit amendment of an existing one, which involves a Schedule B objective in a then adopted conditional fishery unless paragraph (b), (c) or (d) of this § 259.32 applies or unless the Schedule B objective is expressly conditioned upon acquisition construction, or reconstruction of the type permitted under paragraph (e) of this § 259.32. Such an express condition would not survive beyond the time at which conditional fishery status is removed.

**§ 259.33 Constructive deposits and withdrawals; ratification of withdrawals (as qualified) made without first having obtained Secretary's consent; first tax year for which Interim CCF Agreement is effective.**

(a) *Periods controlling permissibility.* For the purpose of this § 259.33, the period between the beginning and the end of a party's tax year is designated "Period (aa)"; the period between the end of a party's tax year and the party's tax due date for that tax year is designated "Period (bb)"; the period between the party's tax due date and the date on which ends the party's last extension (if any) of that tax due date is designated "Period (cc)".

(b) *Constructive deposits and withdrawals (before Interim CCF Agreement effectiveness date).* Constructive deposits and withdrawals shall be permissible only during the Period (aa) during which a written application for an interim CCF Agreement is submitted to the Secretary and so much of the next succeeding Period (aa), if any, which occurs before the Secretary executes the Interim CCF Agreement previously applied for. All otherwise qualified expenditures of eligible ceilings during Period (aa) may be consented to by the Secretary as constructive deposits and withdrawals: *Provided*, The applicant's application for an Interim CCF Agreement and for consent to constructive deposit and withdrawal qualification (together with sufficient supporting data to enable the Secretary's execution or issuance of consent) is submitted to the Secretary either before the end of Period (bb) or, if extension was requested and received, before the end of Period (cc). If, however, the Secretary receives the completed application in proper form so close to the latest permissible period that the Interim CCF Agreement cannot be executed and/or the consent given before the end of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the applicant to negotiate with the Internal Revenue Service (IRS) for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless execute the Interim CCF Agreement and issue his consent however long past the applicant's Period (bb) or

Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the applicant's having failed to apply in a more timely fashion.

(c) *Constructive deposits (after Interim CCF Agreement effectiveness date).* The Secretary shall not permit constructive deposits or withdrawals after the effective date of an Interim CCF Agreement. Eligible ceilings must, after the effective date of an interim CCF Agreement, be physically deposited in money or kind in scheduled depositories before the last date eligible ceilings for any Period (aa) of any party become ineligible for deposit (the last date being Period (bb) or Period (cc), whichever applies).

(d) *Ratification of withdrawals (as qualified) made without first having obtained Secretary's consent.* The Secretary may ratify as qualified any withdrawal made without first having obtained the Secretary's consent therefor, provided the withdrawal was such as would have resulted in the Secretary's consent had it been requested before withdrawal, and provided further that the party's request for consent (together with sufficient supporting data to enable issuance of the Secretary's consent) is submitted to the Secretary either before the end of Period (bb) or, if extension was requested and received, before the end of Period (cc).

(1) If, however, the Secretary receives the request in proper form so close to the latest permissible period that the consent cannot be given before expiration of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with IRS for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless issue his consent however long past the party's Period (bb) or Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party's having failed to apply in a more timely fashion.

(2) All parties shall be counseled that it is manifestly in their best interest to request the Secretary's consent 45 days in advance of the expected date of withdrawal. Withdrawals made without the Secretary's consent, in reliance on obtaining the Secretary's consent, are made purely at a party's own risk. Should any withdrawal made without the Secretary's consent prove, for any reason, to be one to which the Secretary will not or cannot consent by ratification, then the result will be either, or both, at the Secretary's discretion, an unqualified withdrawal or an involuntary termination of the Interim CCF Agreement.

(3) Should the withdrawal made without having first obtained the Secretary's consent be made in pursuance of a project not then an eligible Schedule B objective, then the Secretary may entertain an application to amend the Interim CCF Agreement's Schedule B objectives as the prerequisite to consenting by ratification to the withdrawal, all under the same time constraints and conditions as otherwise specified herein.

(4) Any withdrawals made, after the effective date of an Interim CCF Agreement, without the Secretary's consent are automatically non-qualified withdrawals unless the Secretary subsequently consents to them by ratification as otherwise specified herein.

(5) Redeposit of that portion of the ceiling withdrawn without the Secretary's consent, and for which such consent is not subsequently given (either by ratification or otherwise), shall not be permitted. If such a non-qualified withdrawal adversely affects the Interim CCF Agreement's general status in any wise deemed by the Secretary, at his discretion, to be significant and material, the Secretary may involuntarily terminate the Interim CCF Agreement.

(e) *First tax year for which Interim CCF Agreement is effective.* An Agreement, to be effective for any party's Period (aa), must be executed and entered into by the party, and submitted to the Secretary, before the end of Period (bb) or Period (cc), whichever applies, for such Period (aa). If executed and entered into by the party, and/or received by the Secretary, after the end of Period

(bb) or Period (cc), whichever applies, then the Agreement will be first effective for the next succeeding Period (aa).

(1) If, however, the Secretary receives an Agreement executed and entered into by the party in proper form so close to the latest permissible period that the Secretary cannot execute the Agreement before expiration of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with IRS for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless execute the Agreement however long past the party's Period (bb) or Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party's having failed to apply in a more timely manner.

(2) All parties shall be counseled that it is manifestly in their best interest to enter into and execute an Agreement, and submit the same to the Secretary, at least 45 days in advance of the Period (bb) or Period (cc), whichever applies, for the Period (aa) for which the Agreement is first intended to be effective.

#### **§ 259.34 Minimum and maximum deposits; maximum time to deposit.**

(a) *Minimum annual deposit.* The minimum annual (based on each party's taxable year) deposit required by the Secretary in order to maintain an Interim CCF Agreement shall be an amount equal to 2 percent of the total anticipated cost of all Schedule B objectives unless such 2 percent exceeds during any tax year 50 percent of a party's Schedule A taxable income, in which case the minimum deposit for that year shall be 50 percent of the party's Schedule A taxable income.

(1) Minimum annual deposit compliance shall be audited at the end of each party's taxable year unless any one or more of the Schedule B objectives is scheduled for commencement more than 3 taxable years in advance of the taxable year in which the agreement is

effected, in which case minimum annual deposit compliance shall be audited at the end of each 3 year taxable period. In any taxable year, a Party may apply any eligible amount in excess of the 2 percent minimum annual deposit toward meeting the party's minimum annual deposit requirement in past or future years: *Provided, however*, At the end of each 3 year period, the aggregate amount in the fund must be in compliance with 2 percent minimum annual deposit rule (unless the 50 percent of taxable income situation applies).

(2) The Secretary may, at his discretion and for good and sufficient cause shown, consent to minimum annual deposits in any given tax year or combination of tax years in an amount lower than prescribed herein: *Provided*, The party demonstrates to the Secretary's satisfaction the availability of sufficient funds from any combination of sources to accomplish Schedule B objectives at the time they are scheduled for accomplishment.

(b) *Maximum deposits*. Other than the maximum annual ceilings established by the Act, the Secretary shall not establish a maximum annual ceiling: *Provided, however*, That deposits can no longer be made once a party has deposited 100 percent of the anticipated cost of all Schedule B objectives, unless the Interim CCF Agreement is then amended to establish additional Schedule B objectives.

(c) *Maximum time to deposit*. Ten years shall ordinarily be the maximum time the Secretary shall permit in which to accumulate deposits prior to commencement of any given Schedule B objective. A time longer than 10 years, either by original scheduling or by subsequent extension through amendment, may, however, be permitted at the Secretary's discretion and for good and sufficient cause shown.

**§ 259.35 Annual deposit and withdrawal reports required.**

(a) The Secretary will require from each Interim CCF Agreement holder (Party) the following annual deposit and withdrawal reports. Failure to submit such reports may be cause for involuntary termination of CCF Agreements.

(1) A preliminary deposit and withdrawal report at the end of each calendar year, which must be submitted not later than 45 days after the close of the calendar year. The report must give the amounts withdrawn from and deposited into the party's CCF during the subject year, and be in letter form showing the agreement holder's name, FVCCF identification number, and taxpayer identification number. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and the account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity. If the party's tax year is the same as the calendar year, and if the final deposit and withdrawal report required under paragraph (a)(2) of this section is submitted before the due date for this preliminary report, then this report is not required.

(2) A final deposit and withdrawal report at the end of the tax year, which shall be submitted not later than 30 days after expiration of the due date, with extensions (if any), for filing the party's Federal income tax return. The report must be made on a form prescribed by the Secretary using a separate form for each FVCCF depository. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity.

(b) Failure to submit the required annual deposit and withdrawal reports shall be cause after due notice for either, or both, disqualification of withdrawals or involuntary termination of the Interim CCF Agreement, at the Secretary's discretion.

(c) Additionally, the Secretary shall require from each Interim CCF Agreement holder, not later than 30 days after expiration of the party's tax due date, with extensions (if any), a copy of the party's Federal Income Tax Return filed with IRS for the preceding tax year. Failure to submit shall after due notice be cause for the same adverse

## § 259.36

action specified in the paragraph above.

[39 FR 33675, Sept. 19, 1974, as amended at 48 FR 57302, Dec. 29, 1983; 53 FR 35203, Sept. 12, 1988]

### § 259.36 CCF accounts.

(a) *General:* Each CCF account in each scheduled depository shall have an account number, which must be reflected on the reports required by § 259.35. All CCF accounts shall be reserved only for CCF transactions. There shall be no intermingling of CCF and non-CCF transactions and there shall be no pooling of 2 or more CCF accounts without prior consent of the Secretary. Safe deposit boxes, safes, or the like shall not be eligible CCF depositories without the Secretary's consent and then only under such conditions as the Secretary, in his discretion, prescribes.

(b) *Assignment:* The use of Fund assets for transactions in the nature of a countervailing balance, compensating balance, pledge, assignment, or similar security arrangement shall constitute a material breach of the Agreement unless prior written consent of the Secretary is obtained.

(c) *Depositories:* (1) Section 607(c) of the Act provides that amounts in a CCF must be kept in the depository or depositories specified in the Agreements and be subject to such trustee or other fiduciary requirements as the Secretary may specify.

(2) Unless otherwise specified in the Agreement, the party may select the type or types of accounts in which the assets of the Fund may be deposited.

(3) Non-cash deposits or investments of the Fund should be placed in control of a trustee under the following conditions:

(i) The trustee should be specified in the Agreement;

(ii) The trust instrument should provide that all investment restrictions stated in section 607(c) of the Act will be observed;

(iii) The trust instrument should provide that the trustee will give consideration to the party's withdrawal requirements under the Agreement when investing the Fund;

(iv) The trustee must agree to be bound by all rules and regulations

## 50 CFR Ch. II (10-1-97 Edition)

which have been or will be promulgated governing the investment or management of the Fund.

### § 259.37 Conditional consents to withdrawal qualification.

The Secretary may conditionally consent to the qualification of withdrawal, such consent being conditional upon the timely submission to the Secretary of such further proofs, assurances, and advices as the Secretary, in his discretion, may require. Failure of a party to comply with the conditions of such a consent within a reasonable time and after due notice shall, at the Secretary's discretion, be cause for either, or both, nonqualification of withdrawal or involuntary Interim CCF Agreement termination.

### § 259.38 Miscellaneous.

(a) Wherever the Secretary prescribes time constraints herein for the submission of any CCF transactions, the postmark date shall control if mailed or, if personally delivered, the actual date of submission. All required materials may be submitted to any Financial Assistance Division office of the National Marine Fisheries Service.

(b) All CCF information received by the Secretary shall be held strictly confidential, except that it may be published or disclosed in statistical form provided such publication does not disclose, directly or indirectly, the identity of any fundholder.

(c) While recognizing that precise regulations are necessary in order to treat similarly situated parties similarly, the Secretary also realizes that precision in regulations can often cause inequitable effects to result from unavoidable, unintended, or minor discrepancies between the regulations and the circumstances they attempt to govern. The Secretary will, consequently, at his discretion, as a matter of privilege and not as a matter of right, attempt to afford relief to parties where literal application of the purely procedural, as opposed to substantive, aspects of these regulations would otherwise work an inequitable hardship. This privilege will be sparingly granted and no party should before the fact attempt to act in reliance on its being granted after the fact.

**National Marine Fisheries Service/NOAA, Commerce**

**§ 259.38**

(d) These §§259.30 through 259.38 are applicable absolutely to all Interim CCF Agreements first entered into (or the amendment of all then existing Interim CCF Agreements, which amendment is first entered into) on or after the date these §§259.30 through 259.38 are adopted. These §§259.30 through 259.38 are applicable to all Interim CCF Agreements entered into before the date these §§259.30 through 259.38 are adopted, with the following exceptions only:

(1) The vessel age limitations imposed by §259.31 shall not apply to already scheduled Schedule B objectives.

(2) The minimum deposits imposed by §259.34 shall not apply to any party's tax year before that party's tax year next following the one in which these §§259.30 through 259.38 are adopted.

(e) These §§259.30 through 259.38 are specifically incorporated in all past, present, and future Interim CCF Agreements by reference thereto made in Whereas Clause number 2 of all such Interim CCF Agreements.
